MARION, *McDowell County,* North Carolina

PREFACE

Marion, North Carolina, population (township) 12,538, elevation 1450 feet, the county seat of McDowell County, has been widely publicized as the "lake city of the mountains," which distinction is but a just claim. Even more significant, however, is its relation to the mountains rather than its accessibility to the mirrored lakes within easy reach.

"The front door to the Blue Ridge" is the impression of the tourists who pause to recount the scenic aspects of this locality. Marion is situated in the beautiful Catawba river valley, adjacent to the head waters of Lake James with 152 miles shoreline, largest artificial lake producing power in North Carolina. A few miles distant is the picturesque Lake Tahoma, "in the shadow of Mt. Mitchell." Other towering mountain peaks spread shadows over the country side to the West and north while South mountains and the foot hills almost encompass the city in the opposite direction.

Without question, there is no town in the country which can rightly boast of so great a panorama of scenic interest within a radius covered by an afternoon's leisurely drive. The famed Linville Falls and gorge, the Little Switzerland area, the Linville caverns, the grandure of Mt. Mitchell, Grandfather Mountain, Table Rock and Hawk's Bill are all less than an hour distant over the network of hard surfaced roads.

Much of the best scenery to be found anywhere in Eastern America can be covered by easy stage, over the many tours radiating out of the town of Marion.

Mention is made of one tour of unmatched beauty which takes you past Lake Tahoma and up the winding trail along the borders of Buck Creek. Stop at Buck Creek falls and imbibe the serene beauty of the crystal clear, sparkling water pouring over massive rocks. And look back into geological ages past and note the sculpture and carvings which nature has created by the incessent current cutting its way through foot after foot of solid stone. On the edges of the turbulent stream, where the spray rises in sparkling beauty, can be seen minature rainbows dancing in the sunlight.

But we can not linger here. Up the road are other sights of more than passing interest. The road itself is a masterpiece of engineering as it ascends more than two thousand feet at an almost even grade, so uniform that it is barely noticeable until one reaches almost the crest of the mountain.

398799

Then Buck Creek Gap, where the state highway intercepts the Blue Ridge Parkway, a forty million dollar project which is now nearing completion by the Federal government for the sole convenience of the tourists of the nation. At the gap one pauses in admiration of the grandure as he gazes upon the broad expanse of Mt. Mitchell, only a few miles away, rising more than a mile, almost sheer, from its base.

A few miles further on one may turn to the left from the paved road and cross the mountains over a newly constructed, all weather road, paralleling the outline of Mt. Mitchell for many miles, passing through the Mt. Mitchell game preserve and the state fish hatchery, and eventually re-enter U. S. Highway No. 70 a few miles west of the point of departure.

But Marion and vicinity is not merely a haven for tourists and pleasure-seekers. It possesses an appreciable share of industry, and abundant fertile bottom lands for those who would till the soil. The agricultural products of the county consist largely of hay, corn, rye, oats, Irish and sweet potatoes, and wheat; which have a yearly value to the farmers of more than half a million dollars. To this one may add the dairying and poultry business which bring in $60,000.00 annually. One apple orchard comprises 20,000 trees and many smaller orchards flourish in the thermal atmosphere which almost guarantees success in the horticultural field.

Industries located in, and adjacent to, the town of Marion comprise furniture manufacturing, hosiery and textiles. There are two furniture factories employing approximately 700 men. Shipments from each of these reach near the million mark every year and go into all parts of the nation. There are seven hosiery mills, employing approximately 700 workers, with a capacity output of over 25,000 dozen pairs of sox weekly. There are two print cloth mills and one yarn mill, with 125,000 spindles, employing 1500 hands and consuming 2000 bales of cotton per week.

These industries are supplied with native labor and provide a payroll of approximately $40,000.00 per week.

To one looking for a place to live or to begin business, Marion and vicinity offers countless opportunities. There are still tremendous volumes of unused water power, thousands of acres of pasture lands and tillable soil, innumerable sites for the orchardist, and mountainsides of pulpwood.

For the industrialist, the community offers excellent manufacturing sites, accessibility to raw materials, the highest type of native labor, and unsurpassed transportation facilities via the Southern Railway System, Asheville-Salisbury Division; Marion-Rockhill Division branch line of Southern Railway; Elkhorn Spartanburg Division Clinchfield Railroad lines, and various motor lines.

The success and happiness of the inhabitants of this vicinity can be

Section 28, Copyright Law

In Force July 7, 1909

That any person who wilfully and for profit shall infringe any copyright secured by this act, or who shall knowingly or wilfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by imprisonment for not exceeding 1 year, or by a fine of not less than one hundred dollars nor more than one thousand dollars, or both, in the discretion of the court.

A Business Must Be Built

●

Builders need material to build with.

"Material" for Building a Business may be obtained from this Directory.

Build up your list of prospective customers by checking the Classified Business Lists in this book for those who should use your product.

PREFACE

(Continued from Page 8)

attributed in no small part to the wise and efficient county government. The present tax rate is $1.16 per hundred dollars of valuation, which, while not exceptionally low, is much lower than in many counties in this state. Expenditures for public improvements have been wisely and carefully made, and the citizens point with pride to the fact that there has been no default on any of our county or municipal bonds.

Yes, we say that both the town and county are progressive and substantiate the fact by pointing to activities for the past two years which have seen added to the county school system $100,000.00 in new buildings. The city school system has recently completed an up-to-date athletic field, at the Marion High School, at a cost of approximately $15,000.00. A short while ago a beautiful Community Building was erected with the aid of the Federal Government and the cooperation of the citizens at a cost of $40,000.00.

Building activities continue on the boom in Marion with a $65,000.00 post office and a $25,000.00 city hall during the last two years. Throughout the entire county new buildings are going up, old buildings are being repaired, and streets and roads are being paved. Any person who follows the building trades has no excuse for loafing. There is work a plenty for every one to do who will turn his hand to it. We have no unemployment problem in this vicinity.

We are justly proud of our community for its grandure and scenic beauty, for the industry, and for the progressiveness and cooperation of its citizens. We invite desirable citizens to Marion and McDowell County, to vist, or to establish enterprises; or, if you have retired and are seeking a place to enjoy the declining years, we know of no climate more inviting, and no community exceeding ours in hospitality.

ZENO MARTIN, Mayor, Town of Marion,

WALTER J. CARTIER, Secretary, Chamber of Commerce.

Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who accomplish things and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that energy and push so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

OF

MARION, N. C.

VOL. I 1940-1941 VOL. I

NOTE—Patronize those whose names are in large type, for they are the progressive ones, and generally leaders in their line.

☛ Index appears in front of special business headings only, for which an extra charge is made.

(*)—Purpose of star (*) in front of name is generally used to denote colored person or firm, but its use is so varied that we assume no responsibility for errors or the wrong use of same.
